

Job Title: **Equity Analyst**
Location: Edmonton, Alberta
Target Level: Intermediate
Job #: FIN00878-9

Team: Finance – Treasury, Investment Management

About TELUS:

At TELUS, we're unleashing the power of Internet technologies to deliver the best solutions for Canadians at home, at work, and on the move. TELUS is one of Canada's largest telecommunications companies offering a full range of telecommunications products and services – local, long distance, wireless, data, Internet and e-business.

About the Team:

Based in Edmonton, TELUS' Investment Management Team manages a portion of the trust funds established for the TELUS defined benefit pension plans. This team is responsible for the development of investment strategies, analysis of a broad range of investment opportunities and the execution of investment transactions consistent with the policy and strategy.

Position Overview:

As an Equity Analyst, you will make a positive contribution to the performance of the TELUS equity portfolio and the total fund by contributing to the team's objective of meeting or exceeding policy performance benchmarks.

This is an opportunity to utilize your experience to conduct fundamental equity research and analysis on assigned securities and sectors, developing valuation models and interacting with company management. You will also prepare and present research reports, stock selection recommendations and updates of assigned securities and sectors to the team and assist in the development and execution of semi-annual strategic plans.

You will possess well developed research and analytical skills including experience in constructing financial models. You will also have excellent written and oral communication skills and work effectively within a team environment.

Experience and Education:

- CFA designation or enrolment in the CFA program
- Bachelor of Commerce / Business Administration or a University degree in a related discipline

Note: There is some travel required for this role.
